

**The Palestine Red Crescent strongly condemns the false claims by the occupying forces
about armed individuals launching projectiles from inside Al-Quds Hospital**

2023-11-13

The Palestine Red Crescent strongly condemns the false claims by the occupying forces about armed individuals launching projectiles from inside Al-Quds Hospital. The PRCS sees these claims as a blatant attempt to incite further targeting and besieging of the hospital, constituting a clear violation of international humanitarian law.

The PRCS rejects these baseless allegations, as the published video clearly shows that the armed individuals approached from the street while the occupation tanks were stationed in front of and shielded by the hospital, endangering the lives of medical teams and patients.

The Palestine Red Crescent confirms that there are no armed individuals inside the hospital, and no shots have been fired from within. Everyone within the hospital are patients, their families, and the medical staff.

The PRCS calls on the international community to intervene immediately to protect its teams besieged inside the hospital, facing imminent danger with each passing moment.
