PRCS Report Update
From Saturday, October 7, 2023, at 06:00 AM
Until Friday, October 13, 2023, at 24:00

- The governorates of Gaza and northern Gaza faced a Mass movement of civilians (fearing for their lives) towards the central and southern governorates, after the Israeli occupation forces asked / forced the civilian population to evacuate their places of residence, and during the displacement process, the occupation bombarded citizens' vehicles on Salah al-Din Street, which cause a large number of victims, most of them were women and children, and the Israeli aircrafts targeted an ambulance belonging to the Palestinian Ministry of Health while trying to rescue the injured people .
- Due to the continuous bombardment of the IOF in the surrounding of the PRCS headquarters in Tal El Hawa and ambulance centers, the 101 ambulance service lines faced a massive damage, which posed a major challenge in the process of responding to distress calls from the civilians .
- EMS stations are still operating at high capacity in response to the current escalation, as the number of ambulances operating in the field reached (32) ambulances, (3) vehicles on standby, special tasks, and (112 paramedics, drivers, responders, volunteers and administration).
- As a result of the direct targeting and shelling, Rafah crossing Border (the only entrance between Gaza and Egypt) is closed in both directions to passengers until further notice.
- Al-Durra Children's Hospital was out of service due to being targeted by international forbidden phosphorus shells, as patients were evacuated to other hospitals, and the Israeli occupation forces threatened Al-Awda Hospital in northern Gaza with evacuation.
- The total statistics according to the official sources of cases since the beginning of the escalation (1900) martyrs, including (447) children and (284) women, in addition to more than (7696) injuries, including (2000) children and (1400) women "until 23: 00".
- The total cases dealt with by the PRCS/EMS ambulance crews since the beginning of the escalation are (3451) cases, including (716) martyrs and (2735) injuries.
- Al-Quds Hospital received (394) cases, including (390) injuries and (4) martyrs, and received (9) transferred intensive care cases.
- Al-Amal Hospital received (203) injuries.
- The means of communication of the ambulance service in the PRCS and the VHF waves are subjected to deliberate interference by the occupation, as they are contacted and insulted in Hebrew and the lines are occupied for long periods to disrupt the ambulance service.
- The displacement of a very large number of citizens from the border areas in the governorates to the heart of cities has been recorded in shelters or with host families, as the United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA) announced that its centers received more than 200,000 displaced people in its shelters, while official sources announced an increase in the number of displaced people by more than 330,000 displaced people in different areas.
- The Palestine Red Crescent Society headquarters in Gaza City and Al-Quds Hospital received thousands of displaced civilians , seeking safety, after the Israeli occupation forces threatened them to leave their homes.
- Since the beginning of the escalation, the PRCS teams have dealt with (6800) citizens who were displaced to Al-Quds Hospital and the Society's headquarters in the Tel Al-Hawa neighborhood in Gaza and at Al-Amal Hospital in Khan Younis, where blankets, mattresses and water were provided.
- Due to IOF threats to target civilians, urgent field relief services could not be provided/ stopped in Gaza city and North Gaza governorates.

- In a grave violation that surpasses all red lines, the occupation forces directly targeted an ambulance belonging to the Palestinian Red Crescent Society in the northern Gaza governorate, resulting in the martyrdom of three paramedics: Khalil Al-Sharif, Yassir Al-Masri, and Ahmed Dahman.
- In another violation, despite medical teams receiving clearance to respond in the eastern part of Gaza City, the occupation forces targeted an ambulance belonging to the RCS, leading to the martyrdom of paramedic Hatem Awad, bringing the total number of martyred paramedics in the organization to (4).
- Since the beginning of the escalation, (15) violations against PRCS teams and premises have been recorded, resulting in the martyrdom of (4) paramedics, injuries to (5) ambulance crews, damage to (8) vehicles, severe damage to ICRC building in northern Gaza, and damage to the Emergency Operations Room. (# According to the latest report No. 55/2023)
- The occupation forces continue to target towers, facilities, residential buildings, mosques, major streets, and civilian populations in various areas of the southern governorates, leading to a high number of fatalities, including displaced children and women.
- Official entities have urgently appealed to the international community and international humanitarian organizations due to the depletion of fuel for the sole electricity generation station in Gaza, the closure of the Rafah border crossing, a shortage of fuel supplies, and water cuts. This situation poses a humanitarian catastrophe that affects vital sectors, notably health, water, and the environment.
- Ambulance centers continue to operate at full capacity, with (33) working ambulances, (5) on standby, and a total of (127) paramedics, drivers, first responders, volunteers, and management staff. (# According to the latest report No. 55/2023)
- Due to direct targeting and shelling, the Rafah border crossing (the sole passage) has been closed in both directions, affecting passenger movement until further notice.
- According to official sources, the total number of casualties since the beginning of the escalations stands at (1900) fatalities, including (614) children and (370) women, in addition to over (7696) injuries as of 22:30..(According to the latest report No. 55/2023, due to the difficulty getting an update from the official sources.)
- The total number of cases PRCS has dealt with since the beginning of the escalation is (3451) cases, including (716) martyrs and (2735) injuries.
- Al-Quds Hospital received (350) cases, including (349) injuries and one martyr, with (9) cases transferred to the intensive care unit. Al-Amal Hospital received (174) injuries. (According to the latest report No. 55/2023)
- A huge difficulty of communication with the central operations room in PRCS/HQ in Ramallah, and between the branches of PRCS in the Gaza Strip because of targeting communication lines and towers, and cellular communications.
- Recently, PRCS is relocating its emergency operations room from Gaza City to Khan Yunis center-keeping the field teams providing services across the Gaza strip. Communication is done in the best way possible given the weak communication network.
- A considerable number of citizens have been displaced from border areas to urban centers and in shelters or with host families. UNRWA announced receiving over 200,000 displaced persons in its shelters, as well as more than 330,000 displaced individuals in various areas.
- PRCS teams have responded to approximately 3,000 citizens who sought refuge at Al-Quds Hospital, the main ICRC office in the Tel Al-Hawa neighborhood of Gaza, and at Al-Amal Hospital in Khan Younis since the beginning of the escalations. They were received during the night in available facilities and then directed to nearby shelter centers. Additionally, the PRCS received nearly 1,500 displaced individuals in the available facilities at Al-Quds Hospital on this day. Mineral water, blankets, and personal hygiene items were distributed.

- In coordination with service providers and partners, the disaster risk management teams of the PRCS continue to provide urgent humanitarian assistance to displaced families whose homes have been demolished. The details are as follows:
