Palestine Red Crescent Society: Response Report

As of Saturday, October 7th 2023, 6:00 PM

Until Tuesday, December 12th 2023, 24:00 AM

Palestine Red Crescent Society teams are still responding to the developments on the ground in both Gaza Strip and the West Bank, where the operations are carried out 24\4, for the 67th day in a row.

Latest Updates:

Gaza Strip

The following information in this report is the maximum which our crews were able to collect from direct follow-ups and different sources due to the complete loss of telecommunications and the great difficulty in reaching the sources of information.

- All hospitals in Gaza city and north Gaza are un-operable, due to the Israeli targeting and besiege, denied access of the injured and wounded, preventing the medical teams from providing their services, and forcing them to evacuate towards the south. Buildings, medical teams, and the displaced people inside the hospitals are also targeted, which threatens a very major health catastrophe.
- PRCS emergency medical service stations in Gaza and northern Gaza has stopped operating, due to the restrictions imposed by the occupation forces on the medical teams and fuel depletion required to operate the vehicles, as the hospitals are also un-operable and the evacuation of the cases is nearly impossible, while the medical points are dealing with the minor and moderate cases in the two governorates.
- Southern Gaza hospitals have lost its capacity in terms of receiving the huge numbers of injured and wounded who their lives are threatened to be lost after the intensified targeting of the Israeli occupation forces towards the civilians.
- The fuel crises in Al-amal hospital in Khan Younis remains continues, as the consumption is currently being rationalized to a minimum while working on a schedule system, which affects the services provided to the displaced, injured, and wounded, in addition to the emergency medical services.
- The Israeli occupation forces continue its targeting across the Gaza Strip, vital and industrial facilities, residential, commercial towers, as well as mosques, churches, main streets, resulting in a large number of casualties, the majority of whom are children and women, the complete destruction of the infrastructure, in addition to displacing citizens.
- The Israeli Occupation forces continue to penetrate into numerous central regions in Gaza and north Gaza governorates and have separated the north of the Strip from its South, increasing challenges facing the working medical and relief teams as it prevents the movement of ambulance vehicles from approaching the places of incursions and targets everyone who tries to move there. The Occupation is also forcing citizens to move at certain times through Salah al-Din Street, and targeting some of them with death, injury, arrest, humiliation or inhuman treatment.
- This segregation increases the challenges faced by the medical and relief teams as the ambulances are prohibited from reaching to the areas raided by the Israeli occupation forces and tanks which are directly targeting whoever is trying to move there, while forcing citizens to move at certain times through Salah Al-din street between the northern and southern governorates, some of them are being killed, injured, arrested, humiliated and inhumanely treated.
- PRCS colleague Awni Khattab Head of Khan Younis Ambulance Center remains detained by the Israeli Occupation forces for the 21st day in a row. He was arrested during the wounded convoy from Al-Shifa Hospital, traveling through the checkpoint which separates north and south Gaza.
- The competent authorities continue to recover the bodies of the martyrs from the streets and under the rubble; the recovery crews are facing high challenges in performing their missions because there is no fuel available for the necessary machines which have already been exhausted. Official authorities have received approximately (7780) reports of missing persons in the rubble and corpses laying in the streets including well over (4700) children and women.
- The Ministry of Health confirms that the occupation forces deliberately target medical personnel and crews, which led to the loss of (300) medical personal lives, (32) from the rescue team members and the wreckage of (59) ambulances that are now un-operable. The Ministry of Health also confirms that (22) hospitals and (46) health centers are out of service as a result of Israeli targeting and the depletion of fuel and medical resources. Additionally, the Occupation forces continue to arrest (38) medical personnel, including the General Director of Al-Shifa Hospital in Gaza and to still besiege and target the Indonesian Hospital, obstructing the work of medical teams and preventing them from reaching it.
- The continued targeting of public facilities, as the occupation directly targeted (277) schools, including (75) schools that are out of service, while the number of completely destroyed mosques reached (110) mosques, and (196) partially destroyed mosques, in addition to targeting (3) churches. Based on official data, (86) media professionals were martyred under direct targeting since the beginning of the aggression.
- According to official records (86) journalists were directly targeted and killed by the Israeli forces.

West Bank:

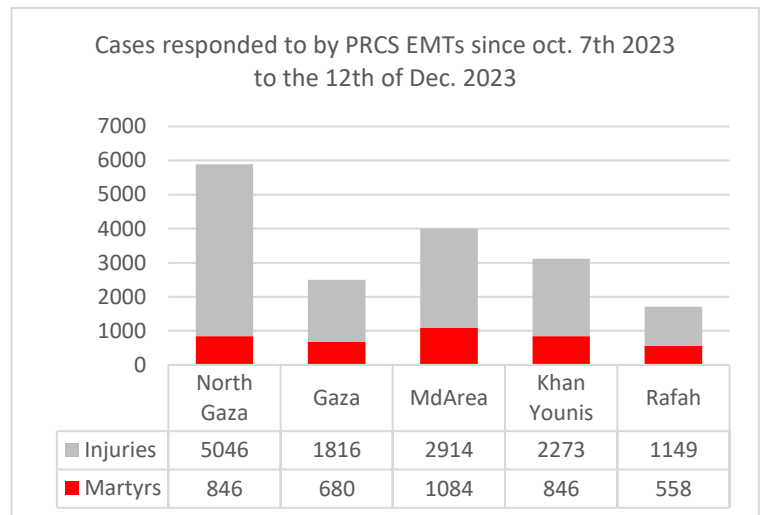

- Jenin governorate: PRCS emergency medical teams dealt with (5) martyrs and (3) injuries, including head injury with a live bullet, physical assault, falling down, during the Israeli forces raid to Jenin city and refugee camp.
- Qalqilya governorates: PRCS emergency medical teams transferred (1) hit by soldiers during the Israeli forces raid to Qalqilya city.
- Ramallah governorate: PRCS emergency medical teams transferred (4) injuries, 2 live bullet injuries in Der Abu Mash'al and 2 shrapnel injuries in Ni'leen.

PRCS Emergency Medical Services Response

Gaza Strip: PRCS EMTs responded to (13,429) casualties, and (4,192) martyrs since the beginning of the escalation, according to the last report from the Central Operations Room of Gaza on December 12th, 2023 at 24:00. The chart below indicates to the figures. In its latest update on December 12th, 2023 at 24:00, The Ministry of Health announced that (+18,412) martyrs and (+50,100) injuries "8,000+ children – 6,200+ women and 750+ elderly, these statistics remain preliminary due to the many of missing people under the rubble."

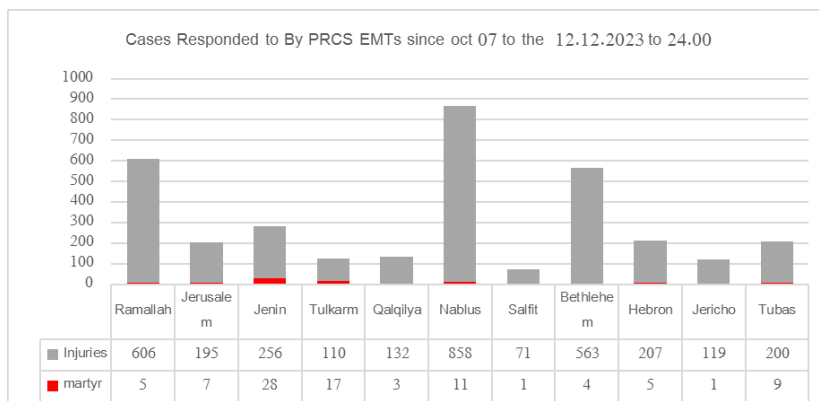

Partially damaged buildings	In-inhabitant buildings
254000+	+52,000

Cases treated at PRCS hospitals in Gaza		
Alquds hospital Nov 11 th 2023	Alamal hospital	Total
1169	1076	2245

Emergency Medical Services Stations continue to operate at high capacity in light of the events taking place. Today's operational capacity was (18) ambulance vehicles operating in the field, (2) of which were special use vehicles. The number of staffs working within this capacity is (71) including emergency medical teams, drivers, first responders, administration, and volunteers, while the medical posts continue to receive the mild and moderate cases in northern Gaza.

West Bank including East Jerusalem: PRCS EMTs responded to (5) martyrs and (8) casualties as of today, December 12th, 2023 until 24:00 AM. Thus, the total number of casualties responded to by PRCS teams from Oct 7th 2023 until December 12th 2023 is (3,325) casualties and (96) martyrs. And the Ministry of Health reported (275) martyrs and more than (3300+) casualties since 7th October, 2023 until 10th December, 2023.

**Violations against PRCS teams:**

The Palestine Red Crescent Society enjoys special protections yielded by international humanitarian law, particularly the Geneva Conventions, and operates within the framework of its humanitarian responsibilities governed by said legal documents. The following recorded violations against our crews, vehicles, and patients are documented in accordance with the First and Fourth Geneva Conventions, the Additional Protocol to the Geneva Conventions, and customary international law.

Gaza Strip:
