Palestine Red Crescent Society Response Report
As of Saturday, October 7 th 2023, 18:00 PM
until Thursday, January 10, 2024, 24:00 AM

Palestine Red Crescent Society teams are still responding to the developments on the ground in the Gaza Strip, the West Bank, where PRCS operations are carried out 24\7, for the **96** day in a row.

Recent Developments

Gaza Strip:

Disclaimer: The information in this report is limited, and only represents the available data which PRCS teams could gather directly or from various credible information sources . This limitation is due to communication disruptions and extreme difficulties in accessing information sources

- **Another blatant violation to humanitarian law against PRCS ambulance crews has been documented; as the Israeli Occupation Forces directly targeted 4 of PRCS' ambulance crews and as a result all four were martyred this afternoon, while responding to humanitarian cases on Salah Al-Din Street in the Central Governorate of Gaza, and the fallen martyrs are:**
 1. Ambulance driver, Yusuf Abdullah Mohammad Abu Muammar, (38 years old).
 2. Paramedic, Fadi Fuad Mohammad Al-Maani, (39 years old).
 3. First responder; volunteer, Islam Nasr Abd Al-Rahim Abu Riyala, (24 years old).
 4. Photographer; volunteer, Fouad Ahmed Mohsen Abu Khamash, (28 years old).**In addition, two citizens have fallen as they boarded the ambulance as patients and were martyred as a result of the Israeli Occupation's direct targeting of the ambulance, mounting to a direct violation to humanitarian law.**
- The Palestine Red Crescent Society (PRCS) donated 10 ambulances to the Palestinian Ministry of Health among several other service providers, in order to strengthen their capacity to respond to humanitarian cases, and promote their resilience in service provision.
- Since the onset of the current hostilities, the Israeli Occupation forces have committed **1,956** massacres against Palestinian families. These horrific events have led to the martyrdom of thousands and wounded tens of thousands more, in addition to familicide; effectively annihilating hundreds of families fully wiping them out from the civil registry.
- PRCS OPS, EMS, rescue and relief, and Paramedics teams are all experiencing sporadic internet outages at our headquarters and Al-Amal Hospital in Khan Yunis. These disruptions are a direct consequence of the recent assaults by the Israeli occupation forces on the areas in the vicinity of the hospital.
- 2 PRCS EMS centers in Gaza and Northern Gaza have been put out of service ceasing to provide any services including emergency response and rescue upon running out of fuel along with the Israeli occupying forces restrictions of access of the working medical teams. Moreover, Hospitals in the governorate are put of service as well and it is impossible to conduct any humanitarian evacuation.
- Well over **900,000** children in the shelters are at risk of dehydration, starvation, digestive and respiratory diseases, skin diseases, and anemia.
- Well over **50,000** pregnant women in the shelters are without water, food, and healthcare, with about **180** women giving birth daily in unsafe and inhumane conditions.
- The healthcare system in the southern areas of Gaza is continuously deteriorating, while the northern areas of Gaza are completely deprived of any healthcare services, especially after the Israeli Occupation forces forced the Red Crescent

Society EMS teams to evacuate out of the Northern Governorate thus obliging them to cease their medical operations there.

- According to live testimonies of Palestinian survivors from the northern governorates of Gaza who reported that the Israeli occupation forces committed mass executions and burials of Palestinian civilians in the Gaza and Northern governorates. Civilians were placed in ditches, executed, and mass buried in the same ditches.
- Hundreds of pleas continue to come through various communication means of Palestine Red Crescent Society from citizens to intervene and evacuate them from different areas in the Gaza Strip where the army of the Israeli occupation is present and deemed Israeli military operation zones. The occupation forces deliberately prevent our teams from intervening in those areas and our teams are subjected to targeted killing.
- All hospitals in Gaza and North Gaza provinces ceased operations due to the Israeli Occupation forces directly targeting and besieging the facilities. This includes preventing access for injured individuals and forcing medical teams to relocate southwards. Hospitals, medical staff, and displaced people within are directly targeted by the Israeli Occupation forces, leading to a severe health crisis.
- Hospitals in South Gaza are utilized beyond their capacity and unable to keep up with the massive number of injured persons, many of whom are at risk of losing their lives due to the escalation of Israeli aggression against civilians.
- Al-Amal Hospital in Khan Younis continues to face a severe fuel crisis, leading to downsizing utilization of the capacity of the facility to a bare minimum and operating according to a scheduled timetable. This significantly affects services for displaced people and patients, including ambulance and emergency medical services.
- Israeli Occupation forces continue intense airstrikes throughout Gaza, targeting industrial, residential, and commercial structures, as well as religious sites and main roads. This has resulted in numerous casualties, predominantly children and women, and complete infrastructure destruction, forcing citizen displacement.
- Israeli Occupation forces continue their incursions in strategic areas of Gaza and North Gaza, isolating them from southern provinces, and targeting any movement in these isolated areas. They have partially separated the regions by closing Salah al-Din Street, while allowing only a civilian passage through a mandatory route on Al-Rasheed Street.
- Medical and relief teams services are severely challenged due to the current status quo, the separation of Gaza and North Gaza, whereas Israeli occupation forces prohibit access to ambulances and EMS teams in areas of the Israeli military incursion and further shoots any moving target.
- The Israeli occupation forces continue to detain **7** members of the PRCS teams in the Northern Governorate of Gaza (paramedics and volunteers). This detention marks the **21th** consecutive day. Noting the detainees were apprehended at the PRCS's headquarters and taken to an undisclosed location, with their fate, current status, and whereabouts still unknown at this moment.
- The Israeli occupation forces continue the arbitrary detention of **Awni Khattab**, Director of the Khan Younis EMS, a PRCS facility, for the **50th** day in a row. It is noteworthy to mention that he was illegally apprehended at the checkpoint separating Northern and Southern Gaza while transferring a critical medical convoy of injured civilians from Al Shifa hospital to then operating Hospitals in the southern of Gaza.
- The Ministry of Health has confirmed the scope of the Israeli Occupation forces operations continued to include targeting civilian individuals and public hospitals and facilities. The following statistics are compiled from various official sources:

326 martyrs EMS teams	40 martyrs from the Civil Defense rescue teams	150 health institutions targeted	30 hospitals and 53 health centers were put out of service
121 ambulances targeted	59 ambulances completely- destroyed and put out of service	99 medical staff members detained	112 martyrs: journalists and media anchors
295 educational institutions targeted	94 educational institutions put out of service	130 mosques completely- destroyed	240 mosques partially- destroyed
3 churches targeted	200 Ancient ruins and archeological sites		10 journalists detained

7000 persons missing under the rubble, including 5000 children and women

- More **than a million children** and elderly people in shelter centers suffer from the risk of dehydration, famine, digestive and respiratory diseases, skin diseases, and anemia.

West Bank:

- The central operations room at PRCS headquarters receives several appeals and reports on a daily basis about those adversely affected by the aggression in the Gaza Strip. The central operations team responds to these reports and takes necessary actions to dispatch support. The reports vary and include different types of cases; wounded persons, martyrs, missing persons, childbirth, chronic diseases, citizens trapped in dangerous crossfire zones requesting urgent evacuation, not to mention medication.

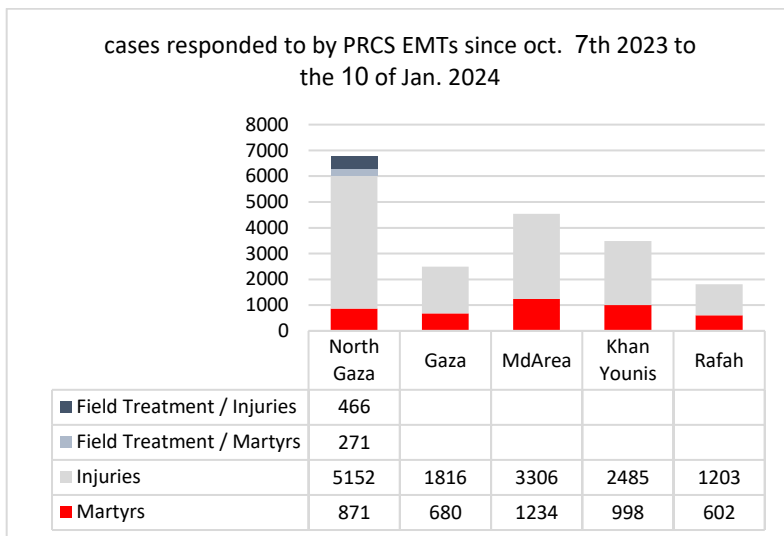

On **Thursday, Jan 10, 2024**, the Israeli occupation forces raided several governorates in the West Bank. The response of the Palestine Red Crescent Society to incidents is documented as follows:

- **Nablus Governorate** PRCS teams responded to **(12)** wounded persons, including **9** persons shot with live ammunition, **1** person physically assaulted by beating, **1** person suffering a panic attack, and **1** person wounded by shrapnel during the Israeli occupation forces' raid into the Old City of Nablus.

PRCS Emergency Medical Services Response

Gaza Strip:

PRCS Emergency Medical Services Response Gaza Strip: PRCS EMTs responded to **(15,588)** wounded, and **(5,167)** martyrs since the beginning of the escalation, according to the last report issued by the Central Operations Room of Gaza on **January 10, 2024, received at 24:00**. The chart below exemplifies the statistics. According to latest official data issued by the Palestinian Ministry of Health on **January 10, 2024, at 24:00**, it reported **over (+23,357)** martyrs; **over (59,410)** wounded including well over **+10,000 children**, well over **+7,000 women**, and well over **+750 elderly**, however these figures are preliminary due to the massive number of individuals still missing under rubble.

Cases handled by PRCS Hospitals I the Gaza Strip		
Al Quds Hospital as of 11/11/2023	Al Amal Hospital	Total
1169	1253	2422

dwelling with partial damage	dwelling unfit for human habitation
+ 290,000	+65,000

- Emergency Medical Services Stations continue to operate at high capacity in response to ongoing events. As of today, there were **19** operational ambulances, including **2** for special tasks, staffed by **95** paramedics, drivers, first responders, administrators, and volunteers. The medical posts are actively receiving minor and moderate medical cases.
- PRCS volunteers are persistently operating at the emergency aid station in North Gaza, despite the Israeli occupation forces forcing PRCS teams in the governorate to evacuate following the arrest of 8 members. The emergency aid station at the EMS center in PRCS's Northern Branch has handled a total of **1,390** cases so far, comprising **510** martyrs and **880** injuries.
- Al-Amal Hospital staff, (PRCS facility), continue to receive and respond to IDPs who cannot reach other hospitals and clinics, especially considering the massive number of IDPs in Al Mawasi area, west of Khan Younis and Rafah. Hence, PRCS' Al-

Mawasi clinic and mobile clinics are at service, where to date **3320** cases were responded to; services included primary care, medical examination, and the provision of necessary medications.

The West Bank and East Jerusalem:

The total number of cases responded to by PRCS teams from Oct 7th, 2023, until January 10, 2024, included **(3,744)** wounded and **(115)** martyrs. The Palestinian Ministry of Health reported **(326)** martyrs and more than **(+3,822)** wounded since 7th October, including **(576)** children, and **(85)** who were assaulted and wounded by the Israeli settlers' aggression as of October 7th until January 5th, 2024.

Violations against PRCS teams:

The Palestine Red Crescent Society enjoys special protections yielded by international humanitarian law, particularly the Geneva Conventions, and operates within the framework of its humanitarian responsibilities governed by said legal documents. The following recorded violations against our teams, vehicles, and patients are documented in accordance with the First and Fourth Geneva Conventions, the Additional Protocol to the Geneva Conventions, and customary international law.

Gaza Strip:

Total Number of violations	Violations Reported by 24:00 on January 10, 2024				
	Martyrdom of paramedics	wounded paramedics	Buildings	PRCS vehicles put out of service	Severely damaged vehicles
53	8	29	17	16	20

West Bank and East Jerusalem:

149 incidents amounting to violations against PRCS documented and reported by 24:00 on Jan 10, 2024	
Type of violation	Number
Prohibiting access	71
Restricting access	61
Violations against EMT's documented and reported	78
Violations against ambulance vehicles documented and reported	64
Violations against Patients and wounded persons	71
Violations against PRCS infrastructure, facilities, and premises	1
Total	346
Total number of martyrs as a direct result of prohibiting the access of medical teams	4

Disaster Risk Management Response:

Gaza Strip:

The Palestine Red Crescent Society's Disaster Risk Management response in Gaza includes:

- **In light of the urgent need to shelter displaced families in Rafah and Khan Younis governorates, the Disaster Risk Management Department established two IDP camps this week, including two shelter camps in Al-Mawasi area, west of Rafah and Khan Yunis. The first IDP camp established in the west of Rafah Governorate housed 40 families comprising a total of 189 individuals. The second IDP camp established in western Khan Younis governorate (AKA as the Egyptian camp) housed 137 families comprising a total of 765 individuals.**
- **The Disaster Risk Management Department supported the Community Action Department by setting up 4 tents as mobile medical clinics to provide primary care to IDPs staying in the shelter set up at the campus of Al Aqsa University.**
- Ongoing relief efforts in all areas in Gaza including displacement centers and coordinating with relevant institutions.
- Since **October 21,2023 to January 6, 2024:**
 - a total of **5,625** trucks of aid were received.
 - PRCS distributed a total of **3,833** trucks of medical supplies, food, water, and hygiene products.
 - **1,792** trucks were allocated to UNRWA and other related official entities.
 - **1,091** of trucks received during the humanitarian pause
 - **310** trucks of humanitarian aid entered North Gaza with food and relief materials during the humanitarian pause.
 - **88** ambulances were received and systematically distributed in coordination with relevant official entities.
 - A total of **3,793,167** liters of fuel and **2415.77** tons of cooking gas were supplied to Gaza during this period.
 - The number of aid trucks that have entered Gaza through the Kerem Shalom crossing is **760**, since December 18, 2023."

West Bank and Jerusalem:

Since **October 7, 2023, until January 09, 2024**, PRCS disaster response team in coordination with the International Committee of the Red Cross (ICRC), carried out rapid assessment and response missions to **66 families** amounting to **931 individuals** adversely impacted by various forms of aggression carried out by the Israeli occupation forces and colonial settlers. This included responding to property demolitions, destruction, and acts of vandalism in numerous West Bank locations. The team distributed a range of relief supplies, including blankets, sanitation and hygiene kits, kitchenware, jerrycans, tarpaulins, tents, mattresses, and heaters, addressing the unique requirements of each affected individual.

Displacement and Evacuation of Civilians in the Gaza Strip:

PRCS premises	Khan Younis & Al-Amal hospital	UNRWA Centers	Official statistics
# of IDPs	13,000+	1.4M+	2M+ IDPs

Community work department, MHPSS, and the Youth & Volunteers interventions:

District	CACs	MHPSS		Volunteers
